

Health In Harmony Chapter Toolkit

Why should you start a chapter?

You can make a difference and have a direct impact by ensuring that communities in rural Borneo have access to high-quality health care, without having to log in a National Park to cover their medical bills. You can support and tell the story of this innovative model by fundraising and raising awareness in your community. We'll be there every step of the way to help you get your chapter established.

How do you start a chapter?

To start a Health In Harmony chapter, gather a group of passionate changemakers and elect a chapter president. Once you've got a group together, if you are establishing a chapter through a school or church, please be sure to register as an official club. Then all you need to do is email Darya at [darya \[at\] healthinharmony.org](mailto:darya@healthinharmony.org) and we'll work with you on getting chapter activities started!

What activities can your chapter organize?

There are several ways you can save forests and save lives with a Health In Harmony chapter:

- Organize creative fundraisers, whether that be a bake sale or concert, to support Health In Harmony's programs, using our easy-to-use crowdfunding platform
- Hold a supply drive to collect urgently needed medical and conservation supplies for our Indonesian pilot program ASRI
- Invite Health In Harmony staff members to speak at your institution
- Hold a screening of "Years of Living Dangerously" and facilitate a discussion around what can be done to address rainforest loss in Indonesia

These are just some ideas! We urge you to be creative and engage in activities that work for your chapter.

Requirements and Expectations of Health In Harmony chapter

- All chapter presidents must complete two check-in surveys throughout the year regarding chapter participation, fundraising, and outreach progress
- All chapters must be open to keeping Health In Harmony's Outreach Manager, Darya, in the loop

- Once funds are collected, chapters can either mail a check or complete a transaction online. We also have a crowdfunding platform that makes the process of fundraising seamless.
- Chapters are expected to share pictures and videos of activities on social media
